###SCI1015 IS EQUIVALENT TO SCI1010 (SEE PAGE 206)

Dual Enrollment Programs

The following programs are available through Dual Enrollment: Biblical & Theological Studies major, Associate of Arts & Bible, Associate of Arts in Liberal Studies, Certificate in Bible, PSEO, and Early College. To enroll in one of the degree or certificate programs, prospective students must meet University of Northwestern's admission requirements (see pages 13–15).

Biblical & Theological Studies Major Bachelor of Arts

The Biblical & Theological Studies major is designed to provide in-depth study and preparation in Bible and related areas and subjects. It is intended for students who wish to pursue graduate studies in preparation for teaching, for those who desire a solid pre-seminary program, or for persons who wish to gain a high proficiency in biblical studies. The Biblical & Theological Studies major follows the curriculum on page 129. The degree is granted upon completion of 125 credits as specified on pages 47–48 (40 credits must be in 3000- or 4000-level courses).

Associate of Arts & Bible

The Associate of Arts & Bible is designed to prepare the graduate for transfer to an upper-level degree program at Northwestern or another institution. The degree is granted upon completion of 60 credits. The Associate of Arts & Bible degree program follows the curriculum on page 131 with the exception of course options that are not offered through Dual Enrollment. Students should check course requirements of the program and school where further study is planned. To enroll in this degree, prospective students must meet the admission requirements (see pages 13–15).

Associate of Arts in Liberal Studies

The Associate of Arts in Liberal Studies is designed to prepare the graduate for transfer to an upper-level degree program at Northwestern or another institution. In addition to completing a broad range of general education courses, this major allows students to choose a concentration in an area of academic or professional interest. The degree is granted upon completion of 60 credits as specified here. The Associate of Arts in Liberal Studies follows the curriculum on page 93 with the exception of course options that are not offered through Dual Enrollment. Students should check course requirements of the program and school where further study is planned. To enroll in this degree, prospective students must meet the admission requirements (see pages 13–15).

Certificate in Bible

The Certificate in Bible is designed for those desiring concentrated training in the Word of God. It assists students to become established in the faith, rooted and grounded in the Word, and fortified with answers to humanity's primary questions regarding life's purpose and destiny. It provides tools for continuing Bible study and for effective Christian witness. It is of value to professional men and women going to the mission field and needing a concentrated study of the Bible. The Certificate in Bible is granted upon completion of the same Bible credits included in Northwestern's bachelor's degrees (see page 131), with the exception of course options that are not offered through Dual Enrollment. To enroll in this certificate, prospective students must meet the admission requirements (see pages 13–15).

PSEO

The Postsecondary Enrollment Options (PSEO) Program, through the state of Minnesota, allows public-, private-, and home-schooled high school juniors and seniors who are residents of Minnesota to complete courses for both secondary and postsecondary credit. The State of Minnesota pays the tuition and most materials costs for these courses. See page 17 for more details.

Early College

High school juniors and seniors who are residents outside the state of Minnesota, who would like to take summer courses, or who would like to take non-state-approved courses can earn college credit while in high school through the Early College Program. See page 17 for more details.
